Subject index

n-Aliphatic alcohols
Trends in the adsorption behaviour of n-aliphatic alcohols on mercury from aqueous 0.5 M Na_2SO_4 (Moncelli et al.) 225

Benzotriazole
Spectroelectrochemical study of passive films formed on brass electrodes in 0.5 M H_2SO_4 aqueous solutions containing benzotriazole (Da Costa et al.) 203

Boundary singularities
Correction of boundary singularities in numerical simulation of time-dependent diffusion processes at unshielded disc electrodes (Gavaghan, Rollett) 1

Brass
Spectroelectrochemical study of passive films formed on brass electrodes in 0.5 M H_2SO_4 aqueous solutions containing benzotriazole (Da Costa et al.) 203

Bulk effects
Bulk effects in external reflection IR spectroscopy. The interpretation of adsorption data for ionic species (Iwasita, Nart) 215

Butanol
Comparative adsorption study of 1-butanol and 1-pentanol on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32°C (Pezzatini et al.) 275

Caesium
Voltammetric study on the oscillation of the potential difference at a liquid/liquid or liquid/membrane interface accompanied by ion transfer (Maeda et al.) 183

Calorimetry
A comparison of calorimetric methods applied to the electrolysis of heavy water on palladium cathodes (Wagner et al.) 393

Capacitive charge
Chronocoulometric measurements of capacitive charge in the presence of faradaic contributions (Foresti et al.) 251

Carbon dioxide
Electroreduction of carbon dioxide on platinum single crystal electrodes: electrochemical and in situ FTIR studies (Nikolic et al.) 415

Chronocoulometry
Chronocoulometric measurements of capacitive charge in the presence of faradaic contributions (Foresti et al.) 251

Coatings
In situ photogeneration of a catalyst on a chemically modified electrode surface: application to a mixed-valent hexacyanoferrate system (Basak et al.) 403

Cofactor F_{430}
The use of the methyl viologen neutral species as a mediator (McLachlan, Crumbliss) 113

Copper
Spectroelectrochemical study of passive films formed on brass electrodes in 0.5 M H_2SO_4 aqueous solutions containing benzotriazole (Da Costa et al.) 203

Corrosion reactivity
Electrochemically assessed corrosion reactivity of $YBa_2Cu_3O_7$ electrodes (Riley, McDevitt) 373

Dairy products
Electrochemical oxidation of ferrocene in naturally occurring molecular assemblies at microdisc electrodes. An application to dairy products (Daniele et al.) 95

Diffusion processes
Correction of boundary singularities in numerical simulation of time-dependent diffusion processes at unshielded disc electrodes (Gavaghan, Rollett) 1

cis-Dioxobis(dithiocarbamato)molybdenum(VI) complexes

Voltammetric studies of *cis*-dioxobis(dithiocarbamato)molybdenum(VI) complexes (Unoura et al.) 385

Disc electrodes
Correction of boundary singularities in numerical simulation of time-dependent diffusion processes at unshielded disc electrodes (Gavaghan, Rollett) 1

Dose rates
Theoretical neutron flux levels, dose rates, and metal foil activation in electrochemical cold fusion experiments (Miles, Miles) 411

Double layer properties
The temperature dependence of double layer properties of gold faces in perchloric acid. Part III. The gold(100) face (Silva et al.) 301

Electroreflectance
An electroreflectance study of polyaniline films in aqueous and aprotic media (Nguyen van Huong, Gonzalez-Tejera) 357

Equilibrium surfaces
Electrochemical monitoring of the thermal reordering of platinum single-crystal surfaces after metallographic polishing from the early stage to the equilibrium surfaces (Clavilier et al.) 333

External reflection IR spectroscopy
Bulk effects in external reflection IR spectroscopy. The interpretation of adsorption data for ionic species (Iwasita, Nart) 215

Faradaic charge
Chronocoulometric measurements of capacitive charge in the presence of faradaic contributions (Foresti et al.) 251

Ferrocene
Electrochemical oxidation of ferrocene in naturally occurring molecular assemblies at microsdisc electrodes. An application to dairy products (Daniele et al.) 95

Gallium
$NaClO_4$ electrosorption on liquid gallium from water (Pezzatini et al.) 265
Comparative adsorption study of 1-butanol and 1-pentanol on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32° C (Pezzatini et al.) 275

Glucose
Structural effects in electrocatalysis: oxidation of glucose on single-crystal platinum electrodes (Popović et al.) 79

Glycols
Trends in the electrosorption of terminal glycols at the mercury/water interface (Moncelli, Guidelli) 239

Gold
Cyclic voltammetric characterization of oriented monocrystalline gold surfaces in aqueous alkaline solution (Hamelin et al.) 291
The temperature dependence of double layer properties of gold faces in perchloric acid. Part III. The gold(100) face (Silva et al.) 301

Heavy water
Theoretical neutron flux levels, dose rates, and metal foil activation in electrochemical cold fusion experiments (Miles, Miles) 411
A comparison of calorimetric methods applied to the electrolysis of heavy water on palladium cathodes (Wagner et al.) 393

Hexacyanoferrate system
In situ photogeneration of a catalyst on a chemically modified electrode surface: application to a mixed-valent hexacyanoferrate system (Basak et al.) 403

Hydrogen
Adsorption of hydrogen on platinum single crystal electrodes in acid and alkali solutions (Kita et al.) 317

Iodomethane
The use of the methyl viologen neutral species as a mediator (McLachlan, Crumbliss) 113

Ion transfer
A study of the effect of aqueous components upon ion transfer across the polymer–water interface (Armstrong, Proud) 163
Voltammetric study on the oscillation of the potential difference at a liquid/liquid or liquid/membrane interface accompanied by ion transfer (Maeda et al.) 183

Iridium
Reversible redox chemistry, hydrosulfurization, and anodic oxidation of thiophenols chemisorbed at smooth polycrystalline iridium electrodes (Bothwell, Soriaga) 123

Iron oxide
Photoelectrochemical properties of Fe_2O_3 microcrystallites prepared in Nafion (Miyoshi et al.) 71

Iron
Kinetics of electrode reactions occurring on porous iron electrodes in alkaline media (Vijayamohanan et al.) 59

Laplace space analysis
Study of the bielectronic electro-oxidation of *N,N,N′,N′*-tetramethyl naphthidine (TMN) in non-aqueous medium. Determination of the individual kinetic parameters by a Laplace space analysis (Zón, Fernández) 41

Mercury
Comparative adsorption study of 1-butanol and 1-pentanol on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32°C (Pezzatini et al.) 275
Trends in the adsorption behaviour of n-aliphatic alcohols on mercury from aqueous 0.5 M Na_2SO_4 (Moncelli et al.) 225
Trends in the electrosorption of terminal glycols at the mercury/water interface (Moncelli, Guidelli) 239
Metal foil activation
Theoretical neutron flux levels, dose rates, and metal foil activation in electrochemical cold fusion experiments (Miles, Miles) 411
Metallographic polishing
Electrochemical monitoring of the thermal reordering of platinum single-crystal surfaces after metallographic polishing from the early stage to the equilibrium surfaces (Clavilier et al.) 333
Methyl viologen
The use of the methyl viologen neutral species as a mediator (McLachlan, Crumbliss) 113
Microcrystallites
Photoelectrochemical properties of Fe_2O_3 microcrystallites prepared in Nafion (Miyoshi et al.) 71
Microdisc electrodes
Electrochemical oxidation of ferrocene in naturally occurring molecular assemblies at microdisc electrodes. An application to dairy products (Daniele et al.) 95
Microdisk array electrode
Quantitative analysis of the steady-state currents of reversible redox species at a microdisk array electrode embedded in a surface electrode (Horiuchi et al.) 25
Microelectrodes
The general characteristics of microelectrodes of any planar geometry under steady-state conditions (Liu et al.) 15
Molybdenum
Voltammetric studies of *cis*-dioxobis(dithiocarbamato)molybdenum(VI) complexes (Unoura et al.) 385

Nafion
Photoelectrochemical properites of Fe_2O_3 microcrystallites prepared in Nafion (Miyoshi et al.) 71
Neutron flux levels
Theoretical neutron flux levels, dose rates, and metal foil activation in electrochemical cold fusion experiments (Miles, Miles) 411

Oligo-decker sandwich compounds
Charge transfer reactions of oligo-decker sandwich compounds (Michels, Schmickler) 139
Oxygen
The mechanism of oxygen reduction on zinc (Wroblowa, Qaderi) 153

Palladium
A comparison of calorimetric methods applied to the electrolysis of heavy water on palladium cathodes (Wagner et al.) 393
Theoretical neutron flux levels, dose rates, and metal foil activation in electrochemical cold fusion experiments (Miles, Miles) 411
Pentanol
Comparative adsorption study of 1-butanol and 1-pentanol on mercury and gallium from aqueous 0.5 M Na_2SO_4 at 32°C (Pezzatini et al.) 275
Perchloric acid
The temperature dependence of double layer properties of gold faces in perchloric acid. Part III. The gold(100) face (Silva et al.) 301
Planar microelectrodes
The general characteristics of microelectrodes of any planar geometry under steady-state conditions (Liu et al.) 15
Platinum
Adsorption of hydrogen on platinum single crystal electrodes in acid and alkali solutions (Kita et al.) 317
Electrochemical monitoring of the thermal reordering of platinum single-crystal surfaces after metallographic polishing from the early stage to the equilibrium surfaces (Clavilier et al.) 333
Electroreduction of carbon dioxide on platinum single crystal electrodes: electrochemical and in situ FTIR studies (Nikolic et al.) 415
Structural effects in electrocatalysis: oxidation of glucose on single-crystal platinum electrodes (Popović et al.) 79

Polyaniline
An electroreflectance study of polyaniline films in aqueous and aprotic media (Nguyen van Huong, Gonzalez-Tejera) 357
Polymer–water interface
A study of the effect of aqueous components upon ion transfer across the polymer–water interface (Armstrong, Proud) 163
Porous iron electrodes
Kinetics of electrode reactions occurring on porous iron electrodes in alkaline media (Vijayamohanan et al.) 59
Pyridine-*n*-aldehyde thiosemicarbazone
SERS effect of pyridine-*n*-aldehyde thiosemicarbazone on a silver electrode (Pinheiro, Temperini) 169

Sandwich compounds
Charge transfer reactions of oligo-decker sandwich compounds (Michels, Schmickler) 139
Silver
SERS effect of pyridine-*n*-aldehyde thiosemicarbazone on a silver electrode (Pinheiro, Temperini) 169
Sodium perchlorate
$NaClO_4$ electrosorption liquid gallium from water (Pezzatini et al.) 265
Sodium sulphate
Trends in the adsorption behaviour of n-aliphatic alcohols on mercury from aqueous 0.5 M Na_2SO_4 (Moncelli et al.) 225
Steady-state currents
Quantitative analysis of the steady-state currents of reversible redox species at a microdisk array electrode embedded in a surface electrode (Horiuchi et al.) 25
Superconductivity
Electrochemically assessed corrosion reactivity of $YBa_2Cu_3O_7$ electrodes (Riley, McDevitt) 373

Tetramethyl naphthidine
Study of the bielectronic electro-oxidation of *N,N,N′,N′*-tetramethyl naphthidine (TMN) in non-aqueous medium. Determination of the individual kinetic parameters by a Laplace space analysis (Zón, Fernández) 41
Tetraphenylammonium ion
Voltammetric study on the oscillation of the potential difference at a liquid/liquid or liquid/membrane interface accompanied by ion transfer (Maeda et al.) 183
Thermal reordering
Electrochemical monitoring of the thermal reordering of platinum single-crystal surfaces after metallographic polishing from the early stage to the equilibrium surfaces (Clavilier et al.) 333
Thiophenols
Reversible redox chemistry, hydrosulfurization, and anodic oxidation of thiophenols chemisorbed at smooth polycrystalline iridium electrodes (Bothwell, Soriaga) 123

Water
$NaClO_4$ electrosorption on liquid gallium from water (Pezzatini et al.) 265
Trends in the electrosorption of terminal glycols at the mercury/water interface (Moncelli, Guidelli) 239

$YBa_2Cu_3O_7$
Electrochemically assessed corrosion reactivity $YBa_2Cu_3O_7$ electrodes (Riley, McDevitt) 373

Zinc
The mechanism of oxygen reduction on zinc (Wroblowa, Qaderi) 153
